

Journal of Mechatronics, Electrical Power, and Vehicular Technology

Volume 03, Issue 2, December 2012

INSURED EDITOR

Head of the Research Centre for Electrical Power and Mechatronics

EDITOR-IN-CHIEF

Dr.Eng. Estiko Rijanto (Control System and Mechatronics Engineering)

MANAGING EDITOR

Tinton D Atmaja, M.T. (Information System and Electrical Engineering)

PEER REVIEWERS

Dr.-Ing. Moch Ichwan (Vehicular Technology; LIPI)
Ir. Edi Leksono, M.Eng., PhD. (Electrical Engineering; ITB)
Dr. Ahmad Agus Setiawan (Renewable Energy Systems; UGM)
Ir. Arko Djajadi, Ph.D. (Mechatronics; Swiss German University)
Dr.Eng. Estiko Rijanto (Mechatronics and Control Systems; LIPI)
Pudji Irasari, M.Sc.rer.nat. (Electrical Engineering/Electric Machines; LIPI)
Dr.Eng. Anindito Purnowidodo, S.T., M.Eng. (Mechanical Engineering; Unibraw)
Dr. Ir. Yoyon Ahmudiarto, M.Sc., IPM. (Electrical Power; LIPI)
Dr. Ir. Zainal Abidin (Mechanical Engineering; ITB)

ADVISORY EDITOR

Rachmini Saporita, PhD. (Interdisciplinary Engineering)

COPY EDITORS

Achmad Praptijanto, M.Eng. (Mechanical Engineering)
Nur Rohmah, M.T. (Chemical Engineering)

PROOFREADER

Naili Huda, M.Eng.Sc (Industrial Engineering)
Ghalya Pikra, M.T. (Energy Conversion)

SUBSCRIPTION MANAGER

Noviadi A Rachman, M.T. (Electrical Engineering)

SECRETARIAT

Andri J Purwanto, S.T. (Mechanical Engineering)
Mella P Susantika, A.Md. (Information Management)

SECTION EDITORS

Merry I Devi, S.T. (Industrial Engineering)
Vita Susanti, S.Kom. (Computer Science)

LAYOUT EDITORS

Aam Muharam, M.T. (Electrical Engineering)
Arief A Firdaus, S.I.Kom. (Communication Science)

WEB ADMIN

Dadan R Saleh, M.T. (Informatics Engineering)

GRAPHIC DESIGNER

M. Redho Kurnia, S.Sn. (Graphic Design)

Mechatronics, Electrical Power, and Vehicular Technology (MEV) is a journal aims to be a leading peer-reviewed platform and an authoritative source of information. We publish original research papers, review articles and case studies focused on mechatronics, electrical power, and vehicular technology as well as related topics. MEV is published and imprinted by Research Center for Electrical Power and Mechatronics - Indonesian Institute of Sciences and managed to be issued twice in every volume. For every edition, the online edition is published earlier than the print edition.

Journal of Mechatronics, Electrical Power, and Vehicular Technology

Volume 03, Issue 2, December 2012

FOREWORD FROM EDITOR-IN-CHIEF

The Journal of Mechatronics, Electrical Power, and Vehicular Technology (MEV) has been accredited by the Indonesian Institute of Sciences (LIPI) in April 2012. It started using Open Journal System (OJS) since the online publishing of the third volume released in July 2012.

This issue of the journal MEV publishes eight papers with the total number of paper pages is 60 pages. In comparison with the previous issue, we have achieved an increment of one paper and 4 paper pages. The selected papers in this issue have passed some levels of reviews and revisions based on the standard operating procedure of the journal. Five topics are related to mechatronics and three topics to electrical power. Six papers are written in English and two papers are written in Bahasa Indonesia.

The policy up to this current issue is that both authors and readers are not charged at all. On the other hand, the editorial board is planning to lift the quality up by promoting papers written in English to reach international readers as well as registering the journal to the international academic citation index. Moreover, the editorial board is also considering to gradually encrease the number of papers and journal's pages. All of this plan will give consequence on financial burden. Therefore, from the next issue, financial policy will change based on that condition.

We wish to offer our thanks to all the editorial board members and administration division of the Research Center for Electrical Power and Mechatronics for their continuing unwavering support. Also, we would like to acknowledge our gratitude to this issue's peer reviewers: Ir. Arko Djajadi, Ph.D., Dr.-Ing. Moch Ichwan, Dr. Ahmad Agus Setiawan, Ir. Edi Leksono, M.Eng., P.hD., Pudji Irasari, M.Sc.rer.nat., Dr. Yoyon Ahmudiarto, Dr. Zainal Abidin, and Dr. Anindito Purnowidodo.

We hope this publication would contribute to the enhancement of science and technology.

Bandung, December 2012

Editor-in-Chief

Journal of Mechatronics, Electrical Power, and Vehicular Technology

Volume 03, Issue 2, December 2012

LIST OF CONTENTS

Development of Swept-sine Excitation Control Method to Minimize the FRF Measurement Error <i>Asmara Yanto, Zainal Abidin</i>	57-64
A Review of Atomic Layer Deposition for Nanoscale Devices <i>Edy Riyanto, Estiko Rijanto, Budi Prawara</i>	65-72
Effect of Contact Pressure on the Resistance Contact Value and Temperature Changes in Copper Busbar Connection <i>Agus Risdiyanto, Noviadi Arief Rachman, Maulana Arifin</i>	73-80
The Effect of the Addition of Active Digester Effluent for Start-Up Accelerator in Anaerobic Digestion of Soybean Curd Industry Waste Water (Basic Research for Biogas Power Generation) <i>Arini Wresta, Wiratni Budhijanto</i>	81-86
Analytical and Numerical Deflection Study on the Structure of 10 kW Low Speed Permanent Magnet Generator <i>Hilman S. Alam, Pudji Irasari, Dyah Kusuma Dewi</i>	87-94
Design of a DC-AC Link Converter for 500w Residential Wind Generator <i>Riza Muhida, Ahmad Firdaus A. Zaidi, Afzeri Tamsir, Rudi Irawan</i>	95-102
Analysis and Development of Walking Algorithm Kinematic Model for 5-Degree of Freedom Bipedal Robot <i>Gerald Wahyudi Setiono, Prianggada Indra Tanaya, Henricus Riyanto Hendradji</i>	103-110
Vibration Disturbance Damping System Design to Protect Payload of the Rocket <i>Sutisno, Andreas Prasetya Adi</i>	111-116
